» *“IRIS Practice Engine gives us the tools and flexibility to create meaningful reports to help manage our processes and drive our business.”*

LISA DUNNIGAN
OLSEN THIELEN | MN

Trusted by more than 25,000 accounting professionals across the world

Operating in the market for more than 20 years, IRIS Practice Engine has helped a host of practices grow their business by enhancing efficiency and improving client relationships. Over the last few decades, the company itself has continuously evolved and innovated its software, developing it to keep pace with the changing needs of the accounting space.

Why is IRIS Practice Engine different?

At IRIS Practice Engine, we know that you want to be a growing, forward thinking firm, unrestricted by your technology and processes. In order to do that, you need one solution to manage your firm. The problem is that legacy software doesn't have the features and capabilities you need, which makes you feel frustrated.

We believe your technology shouldn't hold you back. We understand what it's like to be frustrated with your current practice management software, which is why we've helped hundreds of accounting firms move to IRIS Practice Engine.

Key Features

Time & billing

Proven and flexible time and billing features that can meet any of your firm's requirements, including billing automation and mobile time entry.

Integrated workflow

Efficiently move work throughout the firm in one efficient and accountable system that can make job management and tracking simple.

Streamlined scheduling

Streamline your people and processes further with an intelligent scheduling module.

Powerful reporting

Use our extensive and dynamic reports and portfolios, which are built into the system, or easily integrate with Microsoft Power BI and our Data Warehouse to go to the next level.

Comprehensive client management

From prospect to payables, our system can be used for opportunity and prospect tracking.

Expense management

Track all of your staff's costs related to client and everyday work.
